Nature of Complaint:

Docket No. E-01345A-10-0394 opposed net metering

Caller is opposed to changes being considered in the net metering billings and credits. He feels the banked solar credits that he produces should carry over into the next year, rather than be credited at a reduced rate. Had he known all the changes that would take place, he would never have had solar installed. He feels the state is about 10 years out before solar can be made efficient to all who choose to install.

End of Complaint

Utilities' Response:

Investigator's Comments and Disposition:

Advised caller how to use the eDocket function to view filings on the case. Answered his questions regarding the Commission, and its role in regards to utilities. He thanked me for the info and will watch the docket for further information.
